

For Converting
disintegrating film into

Pharmaceutical film strips
Nutraceutical film strips
Breath freshening strips

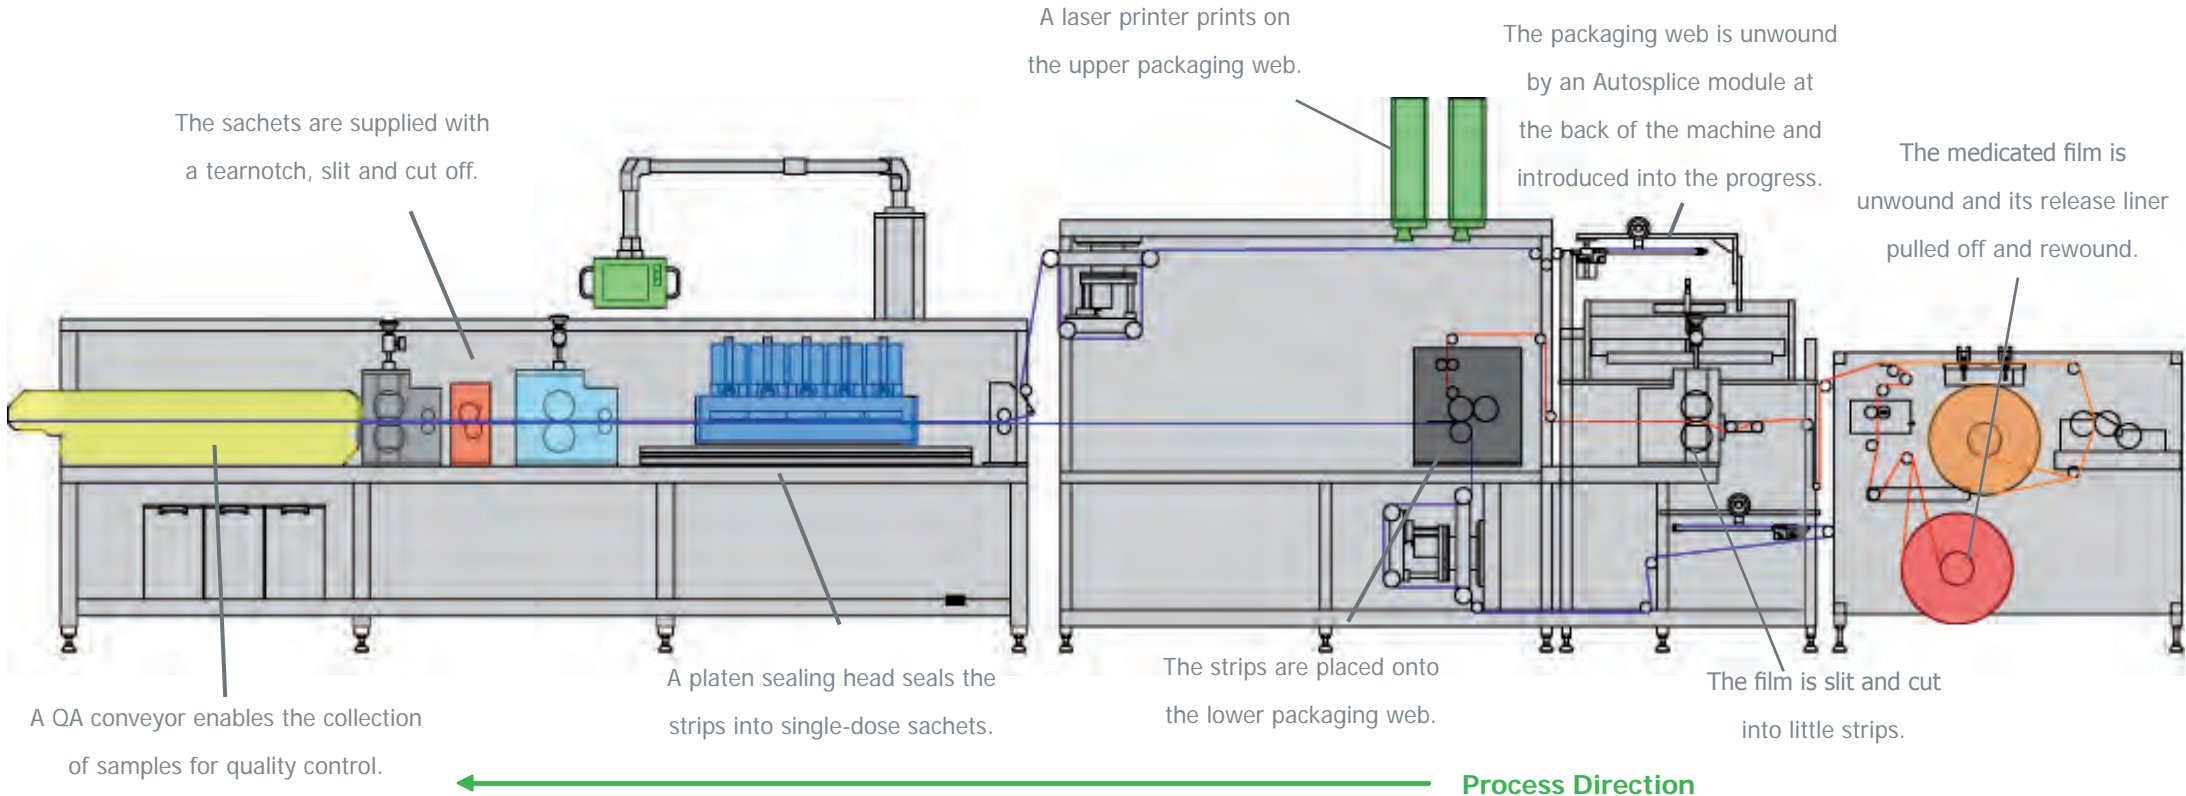

The Oral Strip Converting System converts medicated film into transmucosal drug delivery devices.

Benefits

- Almost 90 per cent material utilization
- Multi-lane operation with up to 8 lanes, up to 1,600 products/min
- Integrated packaging module for single dose sachets, cassette packaging unit possible
- Integrated vision system ensures product position and condition
- Enables product tracking through on-line printing of expiry date or lot number
- Fully validated, GMP, CE and OSHA compliant
- Optional ancillary equipment like collators, feeders and bulk roll handling systems increase convenience, efficiency and personnel safety while reducing downtime and product damage

Oral Strip Converting System

TECHNICAL INFORMATION

Model	Oral Strip Converting System
Lanes	up to 8 lanes
Product length	~25mm – 50mm
Product width	~9mm – 50mm
Speed per lane	up to 200 products / min
Web Roll Spec	<p>Product Film: ~ 76mm or 152mm core, 203mm wide, 457mm Diameter, 41kg</p> <p>Sachet Stock: ~ 76mm core, 812mm wide, 711mm Diameter, 136kg</p>
Dimensions (approx.)	~ L 9150mm x W 3960mm x H 2440mm)
Weight (uncrated)	~1600kg
