

For Packaging

- Wound Care Dressings
- Diagnostic Devices
- Drapes
- Catheters/Guidewires
- Transdermal Patches
- Surgical Gloves
- Sutures
- Electrodes

Doyen's HDW continuous motion platen sealer offers high speed and high volume packaging of medical and diagnostic devices.

Benefits

- Multi-lane operation
- Packs up to 400 products/min per lane
- Converts up to 35 metres (heat-seal) / 50 metres (cold seal) of material/min
- High seal integrity, non-compliant packs are automatically rejected
- Able to run a wide range of papers and films
- Fully validated, GMP, CE and OSHA compliant
- Can be integrated with Doyen converting systems.
- Optional ancillary equipment like collators, feeders and bulk roll handling systems increase convenience, efficiency and personnel safety while reducing downtime and product damage.

High Speed Platen Sealer - HDW

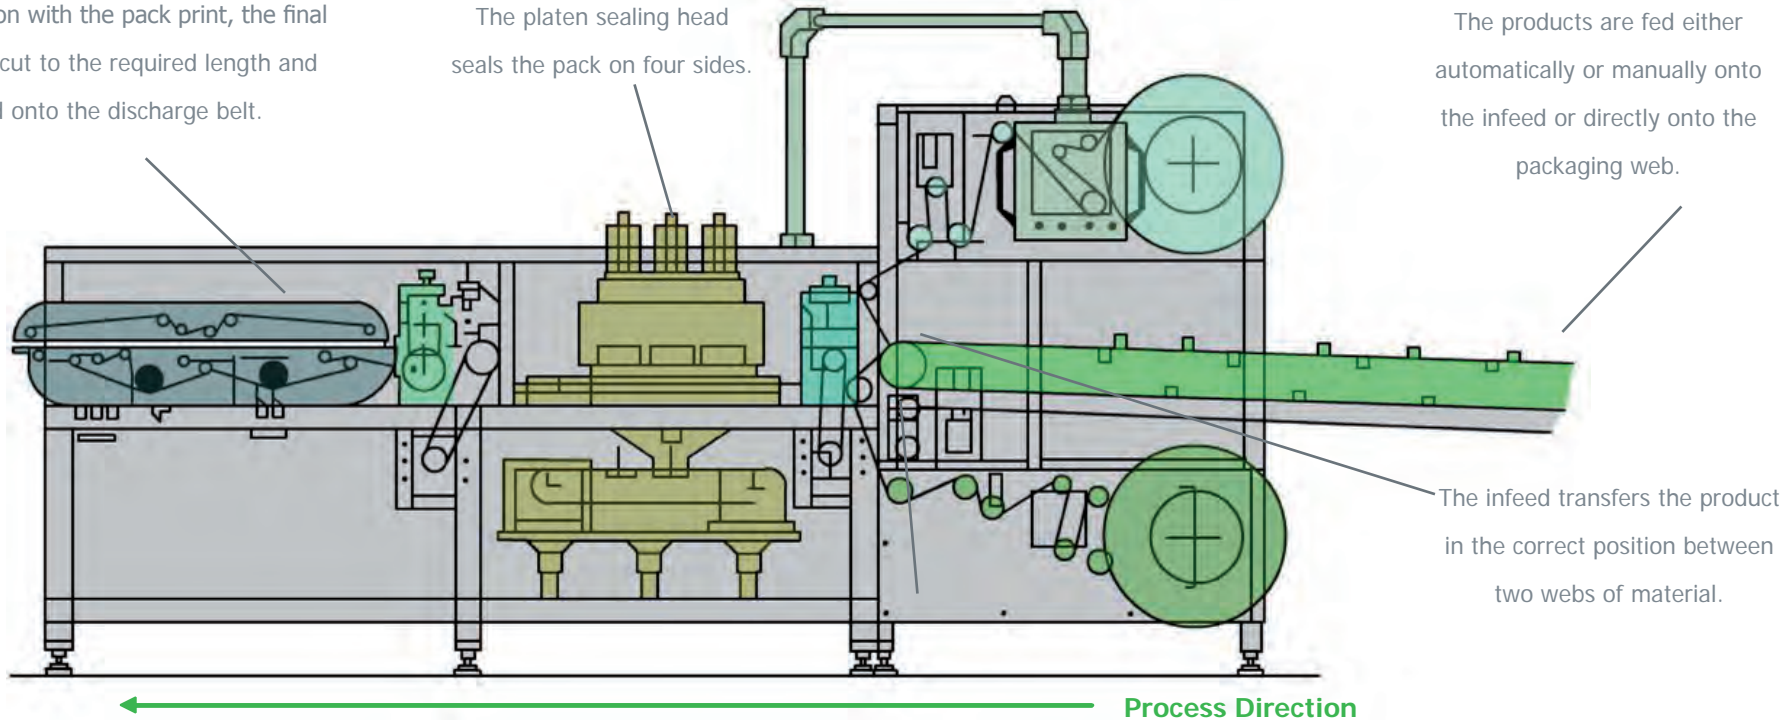

TECHNICAL DETAILS

In registration with the pack print, the final package is cut to the required length and placed onto the discharge belt.

The platen sealing head seals the pack on four sides.

The products are fed either automatically or manually onto the infeed or directly onto the packaging web.

Model	HDW 600	HDW 1200
Web width	178mm	380mm
Lanes	up to 2 lanes	up to 4 lanes
Pack length	50mm - 762mm	55mm - 762mm
