

For Walleting

Surgical Gloves
Procedure Packs
Suction Catheter Kits

Doyen's GPM System is custom built to comply with the needs of the surgical market.

Benefits

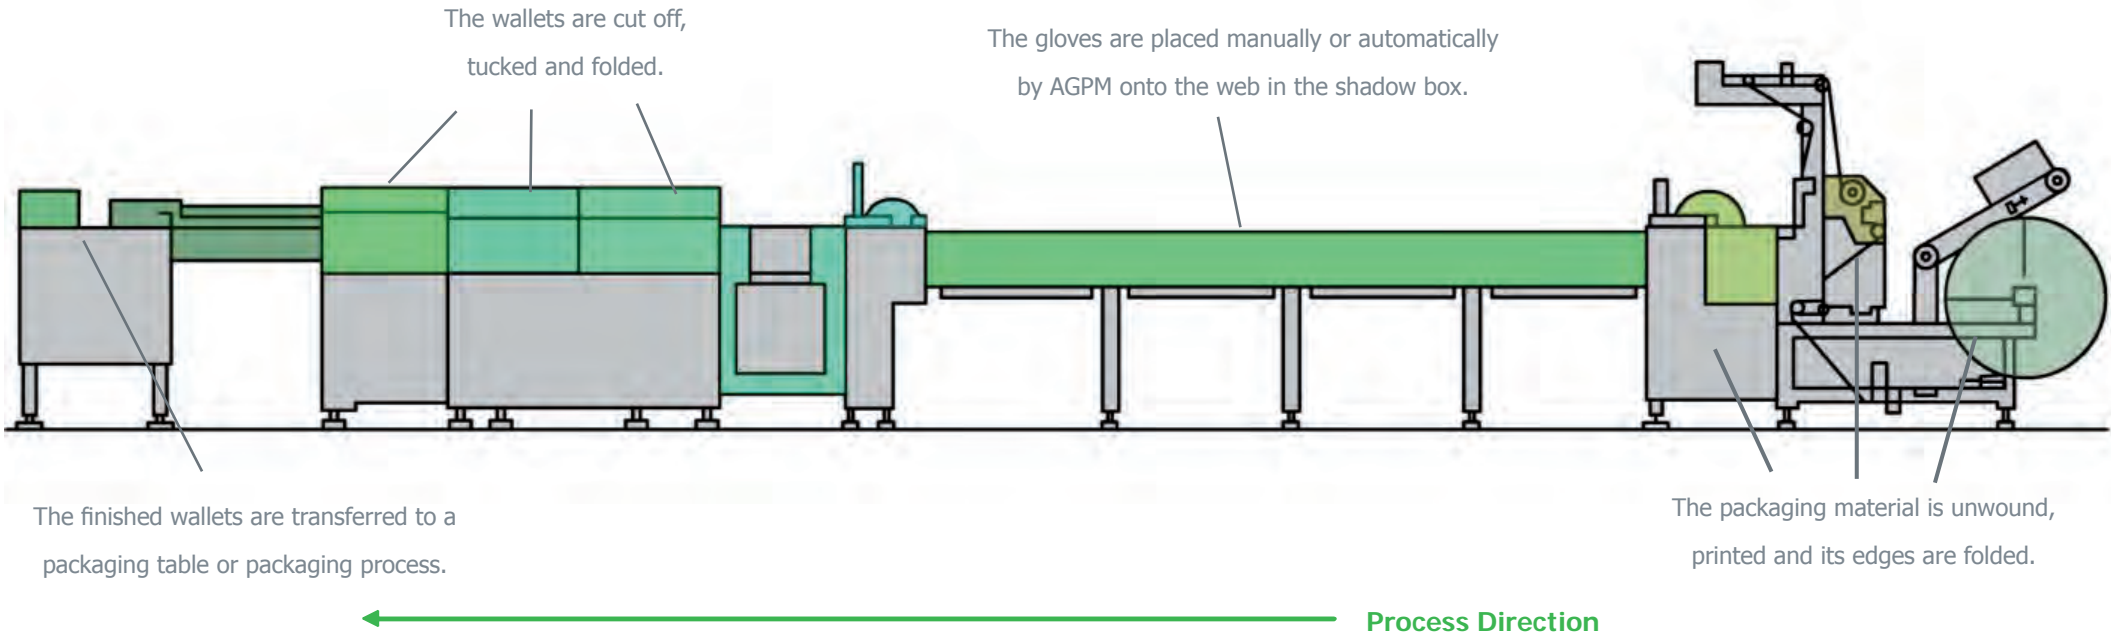

- Up to 80 pairs of gloves per minute
- In-line flexographic printing of wallet
- Complies with the industry standard for maintenance of sterility in use
- Processes crepe and hard kraft walleting materials
- Fully validated, GMP, CE and OSHA compliant
- Optional AGPM unit, an online cuffing system that automatically handles glove placement, reducing labor and wastage by eliminating improperly placed gloves.
- A link to a HDW pouching machine is possible

Glove Walleting System - GPM
